

September 2026

Dear Parent/Carer

We use ClassCharts software, which enables you to view relevant information about students' homework and behaviour.

You can access ClassCharts using the link below. You can also download the Parent app from the Google Play Store or the Apple App Store. <https://www.classcharts.com/parent/login>

As a parent/carers, you will be able to see:

- An overview of homework that has been set for your child.
- A behaviour overview for your child - positive and negative behaviour incidents.
- Details of any detentions recorded for your child, where appropriate.
- Your child's timetable.
- Attendance Data.

Your child will need to use ClassCharts to view any homework due. Please note that homework will be set on ClassCharts, but will not be submitted through ClassCharts. Classroom teachers will decide the format in which work is handed in.

Students registered for ClassCharts in their lesson today.

To access ClassCharts, you will shortly receive an email with your access code; registration guidance is shown below. If you encounter any issues with registering, please contact help@edgbarrowschool.co.uk

Kind regards

Rob Dangerfield
Head of Year 7
